25X1B the photos on any subject category for a given geographic area. There was only one copy of each photograph in the file since the visual subject indexing eliminated the need for cross-referencing.

*NY* c. ~~22~~ <sup>the negatives</sup> Negative File had a 70mm. negative for every accessioned photo in the above two files, plus for the Office of Strategic Services (OSS) files, the originals of which had been retired. This file serviced requests for copies of photographs needed by the requester for retention.

d. ~~24~~ <sup>the</sup> Color Slide File included 35 mm. color transparencies (slides) some of which were duplicates of already accessioned photos arranged by country.
